DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Babu et al. (4,592,762). Babu et al. teach a fuel input system (figure 1, item 13); a gasifier cell, receiving fuel from the fuel input system (figure 1, item 10); whereby heated gas is supplied to the gasifier cell (figure 1, items 12 and 13), and a mixture of gases, char and ash is exhausted from an upper portion of the gasifier cell (figure 1, item 21); a cyclone, having an input in communication with the fluidized bed gasifier cell, for receiving a mixture of gases, char and ash from an upper portion of the fluidized bed gasifier cell, and for separating the mixture into first and second outputs (figure 1, item 21), comprising a first output exhausting a mixture of low BTU gas, and a second output exhausting gas carrying a mixture of ash and char; and (E) a char combustion cell, having an input connected to the second output of the cyclone, oxidizes the char at elevated temperatures; and (F) whereby gas heated within the char combustion cell is use to fluidize the fluidized bed gasifier cell (figure 1, item 10).

Claim Allowance

Claim 22 is allowed.

Claims 2-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance: The prior art of record does not suggest or teach a biomass gasifier apparatus, particularly the plenum and plurality of manifolds within the gasifier cell.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
